

Epping Model Railway Club inc.

2018 Exhibition modelling Competition

Diorama 150 and Diorama 300

Rules

General

By definition a model is a representation of something, in this case a prototype railway scene.

Entry is at the modellers risk. The judges and EMRCInc. cannot be held responsible for any damage that may occur during the competition. Prior to and after judging the models will be displayed in a lock showcase for viewing by the public. However the Model Competition Manager and the judges will take extreme care in the handling of all entries. Judging will be by experienced modeller(s) using a score sheet to be as objective as possible (see separate document) and the Judge's decision will be final.

To assist the judge(s) in scoring the model, a data pack would be very helpful. It may include prototype photos, photos taken during construction of the model, plans, drawings, etc. These items will not be judged but may help the judges to confirm the fidelity of the model.

The model must not have been submitted for this competition in the past.

The model must be entirely the work of the person submitting the model for the competition.
